

Personalized Skincare Report

Generated on February 08, 2025

Analysis Summary

Based on the analysis of your genetic data, we've identified key factors that influence your skin health and created personalized recommendations.

Genetic Risk Assessment

Gene	Category	Risk Level	Affects
------	----------	------------	---------

Recommended Ingredients

Ingredient	Benefits	Evidence
------------	----------	----------

Ingredients to Use with Caution

Ingredient	Caution Level	Reason	Alternatives
------------	---------------	--------	--------------

Additional Notes

- Always patch test new products before full application
- Introduce new products one at a time
- Monitor skin response and adjust routine as needed
- Consider seasonal adjustments to your routine
